Dear sir ,

Greetings from CAE CENTRE.

In continuation with our Telephonic discussion on 30/03/2023 , please find the below specified problem definition for your reference, we need consultancy to design the same , as discussed we will pay Rs 10,000/- as consultancy charges to complete the project , the same need to be submit at the earliest. Kindly confirm the same by reply mail .

**Problem Definition:****“DESIGN OF 6 DEGREES OF FREEDOM ARTICULATED ROBOT FOR WELD INSPECTION “****Requirements:**

1. CAD design
2. Sensor selection and justification
3. Design Validation
4. FEA Analysis

Thanks &amp; Regards

**M.Udaya Shankar Prabhu**

Head – Business Development

TO WHOMSOEVER IT MAY CONCERN

This is to certify that Dr. **G.SHANMUGASUNDAR**, Professor, Department of Mechanical Engineering, **SRI SAI RAM INSTITUTE OF TECHNOLOGY**, Chennai -44 Completed the Following Consultancy project for **CAE CENTRE – Chennai**.

**“DESIGN OF 6 DEGREES OF FREEDOM ARTICULATED ROBOT FOR WELD INSPECTION “**

We made payment of Rs 10,000/- ( Rupees Ten Thousand only ) by means of NEFT to the name of **SAIRAM INDUSTRIAL CONSULTANCY Account** dated 06/04/2023 vide the transaction number 847947654626131.

For CAE CENTRE

*M. Udaya Prabhu*

**CAE CENTRE**

No. 17B/8B, Grace Garden 5th Lane, Royapuram, Chennai - 600 013.

Mobile No : 9884366606

[www.caecentre.com](http://www.caecentre.com) / [udaya.prabhu@caecentre.com](mailto:udaya.prabhu@caecentre.com)

**PROJECT TITLE:**

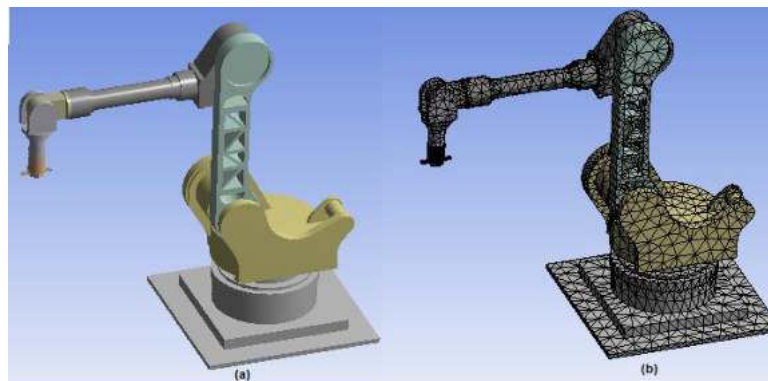

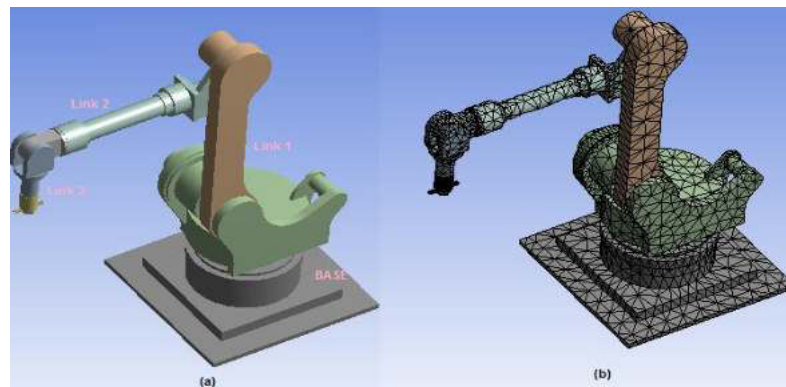

**“DESIGN OF 6 DEGREES OF FREEDOM ARTICULATED ROBOT FOR WELD INSPECTION “**

**NAME OF THE COMPANY:** CAE CENTRE , Royapuram, Chennai, Tamil Nadu 600013.

**Done by :** Dr.G. Shanmugasundar / Dept.of. Mechanical Engineering, Sri Sai Ram Institute of Technology

**MODELLING AND STATIC ANALYSIS OF T-3R-T CONFIGURATION**

The first step of FEA is to build of a CAD model for the complete structure of the robot Fanuc LR Mate 100, considering the restrictions in the joints using 3D solid modelling software – SolidWorks 2018. In order to perform a static analysis a FEM based software has been used – Ansys 12.0 – Fig. 1 and Fig. 2

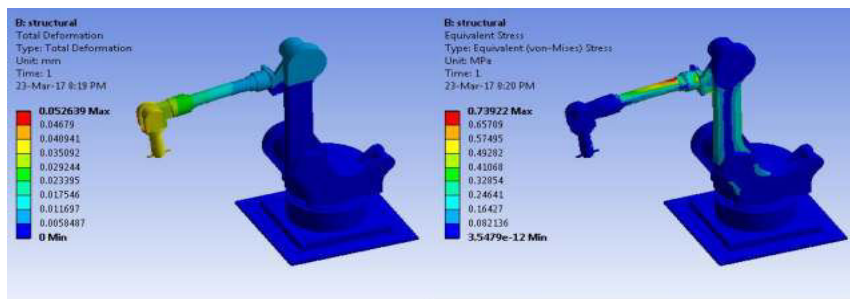

For the FEM analysis of the robot structure, we considered as input data the following parameters: distributed loads  $O_x$ ,  $O_y$ ,  $O_z$  of 50kg ~ 490N gripper load and a temperature distribution in the working area of 50 ° C. The structure was tested to a static analysis in order to obtain the total deformation and directions of principal stress and equivalent (von-Mises).

**Results and discussions**

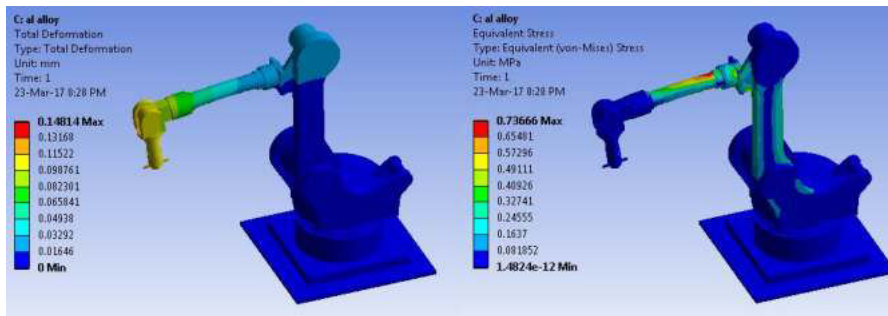

The structure was tested to a static analysis in order to obtain the total deformation and directions of principal stress and equivalent (von-Mises) at constant loading condition for three different materials. The properties of three different materials of the arm are shown in the table. In figure three shows the meshing of the model for the robot mechanism (3).

Table 1. Material properties

Sl no	Properties	Structural Steel	Aluminium alloy	Stainless steel
1	Density ( kg/m <sup>3</sup> )	7,800	2,700	8,000
2	Thermal Expansion (µm/m-K)	11	31	9.6
3	Specific Heat (kJ/kg-K)	0.48	0.896	0.500
4	Thermal Conductivity (W/m-K)	50	167	16.2
6	Young's Modulus (Gpa)	200	68.9	193
7	Poisson's Ratio	0.260	0.33	0.29
8	Bulk Modulus (Gpa)	140	70	134
8	Shear Modulus (Gpa)	79.3	26	72
9	Ultimate tensile strength ( Mpa)	510	310	505

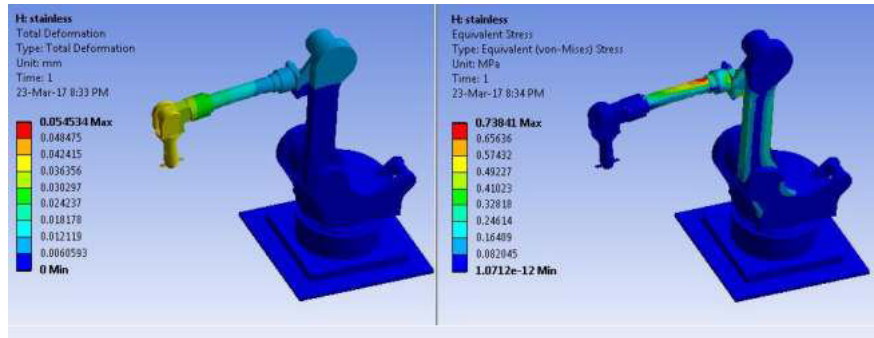

STRUCTURAL STEEL

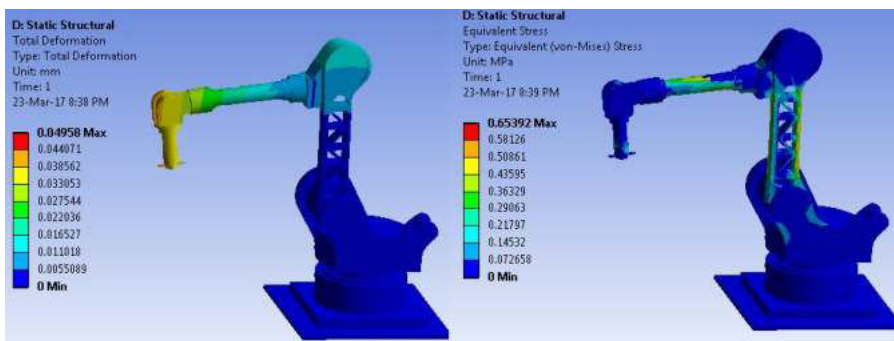

Aluminum Alloy

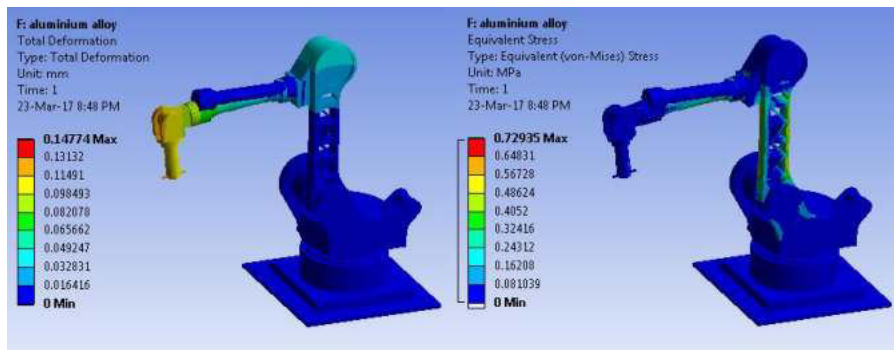

Stainless steel

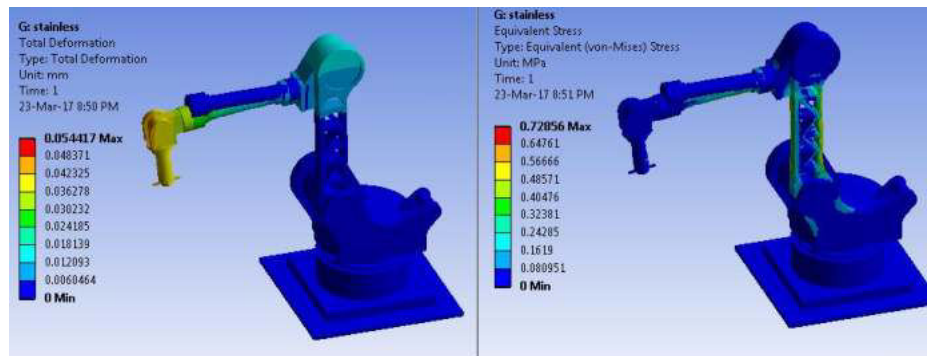

The final optimization step depends on the criteria to be improved, which sets the parameters for analysis. Analysis of parameters like deformation, stiffness or frequency must be considered in order to optimize the robot model.

STRUCTURAL STEEL

Aluminum Alloy

Stainless steel

A comparison between several shapes of the structure has been done. The first analysis comprises a possible shape – Fig. . For this, the results are mentioned in Table 4 – the equivalent von-Mises stress and Table – the deformations along the three axis.

Table 2. Software results for Deflection and stress values of the three materials

<b>SOLID TYPE</b>	<b>mm</b>	<b>Mpa</b>	<b>No Unit</b>
	<b>TOTAL DEFORMATION</b>	<b>STRESS</b>	<b>STRAIN</b>
STRUCTURAL STEEL	0.0526	0.7392	4.72E-06
ALUMINIUM ALLOY	0.14814	0.7366	1.33E-05
STAINLESS STEEL	0.0545	0.7384	4.90E-06
<b>FRAME TYPE</b>			
	<b>mm</b>	<b>Mpa</b>	<b>No Unit</b>
	<b>TOTAL DEFORMATION</b>	<b>STRESS</b>	<b>STRAIN</b>
STRUCTURAL STEEL	0.04958	0.6539	4.90E-06
ALUMINIUM ALLOY	0.14774	0.7293	1.03E-05
STAINLESS STEEL	0.0544	0.7285	3.78E-06

### Project Feasibility :

The current research aimed to reduce the weight of the structure, minimizing its structural deformations on directions Ox, Oy, Oz in order to improve the stiffness, on the basis of calculus of the loading forces applied in a static study. The suggested variants may be chosen from better shape, weight, stiffness, static and dynamic behaviour. Therefore the paper provides a methodology of analysis on the criteria of stiffness and mass while the static analysis determines a solution for a part of the arm that has been detailed. An optimization of a part of the structure from these points of view was performed and we have established the first analysis leading the best results. Research methodology was developed to validate the theoretical results obtained by numerical analysis, finite element method (both those related to static analysis), the frequency modes and the optimization. We have to point out that the design elements of the structure should carefully avoid discontinuities, variations in thickness, sudden changes of direction, small diameter holes and especially sharp angles in order to avoid concentration of stresses. An improvement of the static behaviour of the elements of the structure led to finding a constructive solution from the point of view of optimum weight, shape and static stiffness with changes imposed by successive loads and choosing the best option. Design objective is to find the form that provides maximum stiffness for a given mass. Its structural shape optimization requires a considerable computing time, many trials, is very dependent on user experience rather than solve a local problem and can only improve certain aspects of structural behaviour. Topological optimization is a technique to determine the spatial pattern of its structure or to establish optimum generalized form of continuous or composite structures. Topological optimization to obtain optimum generalized form of a structure is one of the priority areas of implementing the new techniques. The goal is to find the best use of the material for a structure subjected to the action of a force or more forces distribution. From this perspective the aim of the topological optimization for structure design elements is to achieve a maximum rigidity and to optimize the topology with the mass control criteria and interference between the different composite materials.

Course	<b>CCNA 1 – Introduction to Networks (ITN ) &amp; CCNA 2 – Switching, Routing, and Wireless Essentials (SRWE)</b>
Venue	Online mode – On Webex platform
Duration	<b>17/04/2023 (Monday) to 04/05/2023 (Thursday)</b>
Training charges	<b>Rs. 18,600 + GST 18% per Instructor (For both modules put together)</b>
Payment mode	Based on registrations, Proforma Invoice shall be sent, and payment can be done online through the link provided in the Proforma Invoice.
Invoicing	Provide complete Billing Address including GST Number If available.

## Submitted to the Chairman

Sub: SSIT, Chennai – 44 – Requisition to organize Cisco Academy-  
CCNA-I & II value added course is based on Train the Trainer Model  
with students from CSE, IT, ECE, AI&DS, CCE and EEE students -  
and 5 faculty members - Permission – Requested – Reg.

Ref: Letter dt. 10.03.2023 received from the HoD., / Department of CSE.

\*\*\*\*\*

A copy of the letter received from the HoD., CSE is submitted herewith for kind perusal of the Chairman.

It is submitted that the HOD., CSE has stated in her letter cited that the Department has organized Cisco Academy-CCNA-I (Cisco Certified Network Administrator-I & II) certification in association with Amrita Vishwa Vidyapeetham, Coimbatore for the past 4 years. The value added course is based on Train the Trainer model with the students from CSE, IT, ECE, AI&DS, CCE and EEE. Every year Amrita Vishwa Vidyapeetham is organizing CCNA-I and II course for the faculty of Engineering Colleges who in turn train the students on CCNA for better future in Networking.. In this connection, it is submitted that Amrita Vishwa Vidyapeetham is organizing CCNA-I & II certification training from 17.04.2023 to 04.05.2023 through online mode (webx) @ Rs.18600/- + GST 18% per instructor. Therefore, it is requested that permission may kindly be granted to conduct the above program in our Institution and the following faculty members may be permitted to register for the above course and sanction may also be accorded for 6 faculty as certification from their SPACE amount.

1. Dr.V.Brindha Devi / HoD / IT
2. Mr.J.Thirunavukkarasu/AP/CSE
3. Ms.P.Subha/AP/IT
4. Ms.L.Kannagi, AP/CCE
5. Mr.J.Jeyaganesan/AP/AI&DS
6. Ms.R.Lakshmi Devi/AP/ECE

Submitted to the Chairman for kind perusal and approval

Sir

**Sub:** Fibre Optic Sensor for Measurement of Surface Properties –Consultancy –Amount Sanction – Regarding.

With reference to above subject matter we sanction 30000/-Rs (Thirty thousand only) for the consultancy work purpose. We expect work should finish on time. Following are enclosed herewith for your information and further working.

**Project Requirements:**

A design for a fiber optic sensor achieving two dimensional representation of a surface is needed. The simple operating principle is similar to that of a barcode reader or photoelectric sensor receiving and transmitting fibers are in the same plane at equal incident angles to a surface collected radiation is conveyed to a PIN photodiode and preamplifier was needed. If sensed voltage exceeds a predetermined cut-off level, the sensor concludes the presence of a surface thus enabling the detection of through holes in a plate or the edge of a plate.

Thanking You

The Managing Director  
MICRON PRECISION TOOLS.

Sir,

Sub: Consultancy Work regarding.

I am writing to apply for any project or consultancy work in your esteemed industry as my current research area suits your industry needs. Currently I am working as Associate Professor in EEE department at Sri Sai Ram Institute of Technology.

I am doing research work in 'Design and Implementation of speed control of DC drives with Intelligent controller'.

I feel strongly that I would be an ideal candidate for your position of consultation work at your industry. I possess the skills necessary to meet expectations and to satisfy your needs.

I welcome the opportunity to do this project for your industry, and look forward to hearing from you.

Sincerely

R.DHANASEKAR  
Associate Professor,  
Department of EEE,  
Sri Sai Ram Institute of Technology,  
West Tambaram,

Dear Sir,

As per our conversation I am attaching the Request letter to undertake the Consultancy work from your esteemed organization.

I am writing to apply for any project or consultancy work in your esteemed industry as my current research area suits your industry needs. Currently I am working as Assistant Professor in the EEE department at Sri Sai Ram Institute of Technology. I have been doing research for the past 10 years. My friendly personality is an asset to building relationships with clients.

I am adept at solving problems and I feel strongly that I would make an ideal candidate for your open position of Consultant at your Industry. As a high energy personable and reliable professional I possess the skills necessary to meet expectations and to satisfy your needs. I welcome the opportunity to do any projects that you require for your needs and look forward to hearing from you.

Thank you so much for your time and for any consideration you may provide me.

Thank you,  
Vijayaraja L

Dear Sir,

In continuation with Telephonic discussion, PFA attached drawing for your reference, we need consultancy to fabricate the same, as discussed we will pay Rs.30000/- as consultancy charges to complete the project, the same need to be installed at IIT Madras at the earliest. Kindly confirm the same by reply mail.

Thanking you.

Regards,

M. Anandhi

CEO

REVO TECHNOLOGIES AND ENTERPRISES,
