## 75TH Independence Day

On August 15, 2021, India celebrated its 75th Independence Day full enthusiasm. The national flag was hoisted by our Principal Dr.K.Palanikumar at college premises and addressed to the students. Freedom is something you have to fight for. We have fought hard to earn it, so let's celebrate our freedom. Never let go of it and always carry it in your heart. Happy Independence Day! Let your spirits fly high with the Indian flag today. 'Nation First, Always First' Happy Independence Day!

## Pink Eye

Our Chief Speaker Dr.M. Latharani & Dr. V. Indumathy Professor in Sri Sairam Siddha Medical Collage. People often call conjunctivitis “pink eye” because it can cause the white of the eye to take on a pink or red color. Symptoms of pink eye can vary but typically include redness or swelling of the white of the eye. Causes. Most of the time, pink eye is caused by an infection — a virus or bacteria. Viral pink eye is the most common type. Pink eye that's caused by an infection can spread very easily, so avoid passing it to others by washing your hands often and not sharing items like pillowcases, towels, or makeup. Treating conjunctivitis has three main goals: Increase patient comfort. Reduce or lessen the course of the infection or inflammation. Prevent the spread of the infection in contagious forms of conjunctivitis. The appropriate treatment for conjunctivitis depends on its cause.

## Tree Plantation II

Tree plantation is vital to increase the green cover. Trees provide us with fruits and vegetables that are required by all living beings. Tree plantation is vital to ensure that birds and many animals such as koala bears, sloth, and tree frogs, etc. that live on trees have a home. Aware your friends, family to plant more and more TREES. Save TREES planted in your neighborhood. If you own a website or blog then you can post regarding Climate Change, Global Warming and motivate your friend circle to plant TREES.

## Disaster management

Disaster management is a process of effectively preparing for and responding to disasters. It involves strategically organizing resources to lessen the harm that disasters cause. It also involves a systematic approach to managing the responsibilities of disaster prevention, preparedness, response, and recovery. The ethical principles applied during disasters: (i) Humanitarian assistance; (ii) Information and participation during disasters; (iii) Compulsory evacuation of populations; (iv) Respect of dignity; (v) Respect of persons; (vi) Emergency assistance for the most vulnerable persons; (vii) The importance of rescue. Raising awareness about potential hazards and how to address them. Educating the public about how to properly prepare for different types of disaster. Installing and strengthening prediction and warning systems. In a disaster, you face the danger of death or physical injury. You may also lose your home, possessions, and community. Such stressors place you at risk for emotional and physical health problems. Stress reactions after a disaster look very much like the common reactions seen after any type of trauma

## Bone Calcium Check-up Program

## NCC & NSS Training Camp

Government of India, the then Ministry of Human Resource Development conducted the first Republic Day Camp of NSS Volunteers in 1988 at New Delhi. Now the NSS is being run by the Ministry of Youth Affairs & Sports. Right from the beginning, these Republic Day Parade Camps have been proved a boon for the personality development of NSS Volunteers of the country. The volunteers are imparted training in leadership development and (March-Past) parade apart from organising various socio-cultural programmes. As the participants from all states & UTs participate in this camp, the NSS R.D.Camp replicates a MINI INDIA to the nation's capital from 1st-31st January every year. It provides ample opportunities to the NSS volunteers not only to interact among themselves but also

Date: 05 /06/2023

**Details:** The UBA coordinator Mr.D.Muralidharan delivered the lecture on the importance of protecting the environment to NCC, UBA and NSS volunteers. He began his lecture with the basic definition of the environment and moved on to the metrics of how many tons of waste are produced by cities in India. He presented an example of the albatross bird and how the species are affected by the plastics disposed into the ocean. The cadets learnt about the systems enforced in places like Peru, Tunisia and Canada to protect and foster the growth and protection of the environment. We discussed countries like Finland and Singapore and talked about their sensible use of public transport to reduce carbon footprint through vehicular emissions. He quoted, "If we take care of the environment, it takes care of us" which struck a chord with the listeners.
